1959 Tec-Mec no.F415

Tec Mec; this is the 1959 ex-Maserati chassis designer Valerio Colotti car which rose from the ashes after Maserati withdrew from racing in mid-1958. The official name is ‘Studio Tecnica Meccanica’ or ‘Tec Mec’ for short; it is chassis number F415 with the chassis being a lightweight tubular spaceframe; the car was in a private collection for many years before the present owner brought it 10 years ago. The car is immaculate, has HTP papers, lots of documentation and original factory photos and it on the button and ready to go racing, a stunning car.
