1964 Elva MK7S no.049

Built during January 1964 this car was exported to Carl Haas in Chicago. Owned in turn by Messrs Parker (1964-1970), Lynch (1971-1985) and Rudd (1986-1989) the car returned to Europe during 1990 via Italy and France finally being repatriated to the UK. A complete overhaul of both chassis and engine was undertaken by Hall & Hall. The engine was originally built by Lester Owen but subsequently serviced in France and the UK. An HTP was granted during early 2009 to comply with current regulations. There are some spares and two sets of wheels .
