1968 Chevron B9

This superb example is thought to have been the “Sports Motors” entry for 1968 driven by Peter Gethin and Tim Shenken in British F3. The car was bought by Barry Maskell for 1969 and then on to Ian Raby to compete in F4, during the mid 1980’s it slipped into obscurity until being rediscovered on the outskirts of Manchester a decade later. Owned by ourselves and raced recently at Oulton Park Gold Cup and Goodwood Member Meeting. Superb condition with a fresh Geoff Richardson motor and new HTP’s which are valid until 2036. A fabulous little racing car for only £50k.

£50,000
