1965 Lotus Elan 26/4346

Built from the ground up in 2019 by Team Dynamics with all new parts. Latest spec Neil Brown rebuilt engine, Quaife straight cut gears and LSD differential. Fitted with the latest custom roll cage and additional tubes around driver's side. BTB fabricated exhaust manifold + stainless steel exhaust system. Rear Magnesium uprights, Magnesium diff carrier and alloy bellhousing. Fuel bag tanks, B7 Tilet carbon seat, Farrington Tacho and gauges + race logic. 12” Magnesium wheels with tyres and heated front screen. Valid HTP’s. A very competitive recent race history, one of the fastest 26R Elans available at the moment. Nice spares package.
