1964 BRM P261

The BRM P261 also known as a P61 was designed by Tony Rudd, the first full monocoque chassis constructed BRM. Introduced for the 1964 Formula one season and the Tasman series. During the course of their front-line career BRM P261s won six World Championship races, in the hands of great works drivers Graham Hill and Jackie Stewart. This 1500cc V8 Ex-Richard Attwood car is in beautiful condition with valid HTP papers until 2025.
