

# 1976 Shadow DN8-6A

New Listing: This beautifully presented Shadow DN8 designed by Tony Southgate and David Wass, the last of the DN8's to be built. The Ford Cosworth V8 and Hewland gearbox were bolted directly to a narrow Aluminium monocoque. Chassis 6 was first seen at the 1977 US Grand Prix driven by Jean-Pierre Jarier starting at 16th on the grid and finishing 9th. Seen again at the Canadian Grand Prix driven by Riccardo Patrese, starting 8th and retiring after an accident. More recently campaigned in the FIA Masters F1 Championship and also appeared 2015-16 at Zandvoort.
